

ASSETS PROTECTION COMPANY
SECURITY AND SAFETY TRAINING CENTER
(A DIVISION OF SAUDI PETRO GAS COMPANY)

Resource Management

This program aims to provide participants with a clear understanding of the present crisis in SAIL and help them to formulate action plans for optimizing usage of key resources and ultimately reducing the cost of production.

Objectives:

At the end of this program, participants should be able to:

- Appreciate the current difficult situation prevailing in the steel market with special reference to SAIL.
- Understanding the need for managing key resources for the survival and growth of SAIL.
- Appreciate the imperatives for earning at least the opportunity cost of all the resources employed in the company.
- Understand the role of managers in establishing the linkage between corporate value and customer value.
- Frame action plans for reducing operating costs in areas under their control.
