

**ASSETS PROTECTION COMPANY**  
**SECURITY AND SAFETY TRAINING CENTER**  
*(A DIVISION OF SAUDI PETRO GAS COMPANY)*

---

**HANDHELD EXPLOSIVE DETECTOR**

- The first handheld explosive detector capable of detecting explosive vapors and residue without the use of a radioactive source or external carrier gas.
  - Designed for search applications, police, and airport, military, and V.I.P. security authorities worldwide.
  - Quick and clear respond to an explosive threat while being cost effective.
  - Because of its built-in memory, EVD-3000 allows for the collection and storage of over 800 results for verification of performance.
  - Truly portable and deployable, which weights only 7 pounds, ready in 60 seconds to provide rapid response within 10 seconds.
-
