PEPPERBALL SYSTEMS

A unique non-lethal chemical agent delivery system that uses high-pressure air launchers to deliver chemical agents from a distance.

- ➔ Powerful Solutions for the Front Lines!
- ➔ Provides accurate kinetic, psychological, and powder impact from point-blank range to 30 feet on a target; area saturation can be accomplished up to 100 feet.
- ➔ The multiple benefits start with the projectiles, which deliver kinetic impact with 8 to 10 foot-pounds of force to stop suspects without permanent injury. They are easy-breakable spheres that are built to burst on impact to a target object.
- ➔ Provides launching power quickly and simply. PepperBall system launchers are proven effective and yet unmatched by any other available tool because it allows you to adapt to the situation.
- ➔ Cost-effective. Because of its low purchase cost, it saves & maximizes your budget.
